

SEEMPs for Community Level Infrastructure & Services

Prepared by the Ministry of Community Sport and Cultural Development
For Presentation at the Cumulative Impacts Research Consortium Workshop
October 2-3, 2015

Outline

- ▶ Background
- ▶ All about the SEEMP
 - What it is & isn't | focus | purpose | what it includes
- ▶ Roles
- ▶ Adaptive Management
- ▶ Project Updates

Background

- ▶ Communities expect socio-economic effects of major LNG projects will be addressed
- ▶ Existing regulatory frameworks/planning processes not adequate to meet expectations
- ▶ Socio-economic plans for community-level infrastructure and services (SEEMP) – provides a process to ensure extraordinary demands on community-level services and infrastructure as a result of major LNG project construction are addressed

What a SEEMP is and isn't

A SEEMP ...

- ▶ ...is an opportunity to build relationships and ensure project information is shared at the right time with the right people
- ▶ ...provides a process to address the short term infrastructure/ service gap directly related to the construction phase of major LNG projects

A SEEMP is not

- ▶ ... intended to fund infrastructure and services associated with long term growth or addressed by other mechanisms

About the SEEMP

Starting point

- ▶ EA condition – legally binding

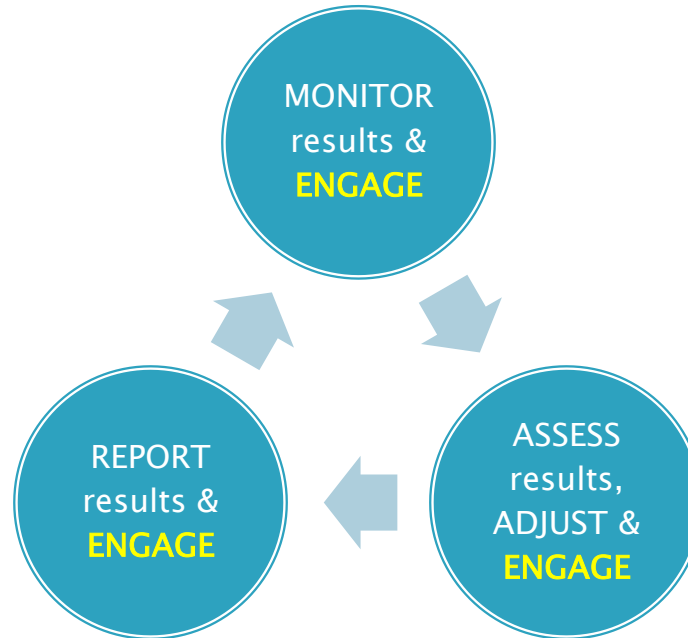

Purpose

- ▶ To describe an Adaptive Management approach to implementing mitigations to address effects on community level service and infrastructure directly related to the project construction phase

Plan Includes

- ▶ Objectives
- ▶ Engagement record (plan development)
- ▶ Engagement approach (plan implementation)
- ▶ Monitoring and reporting approach
- ▶ Consolidated list socio-economic effects and mitigations from EA condition
- ▶ New project information (i.e., post EA certificate being issued)

Adaptive Management & Engagement

DEVELOP PLAN & ENGAGE

IMPLEMENT Plan with Adaptive Management Approach

Roles and Responsibilities:

MCSCD & EAO

Ministry of Community, Sport and Cultural Development...

- ▶ provides advice/guidance on how to develop the plan
- ▶ receives the plan from the certificate holder to:
 - confirm key content included
 - review engagement record to ensure engagement has occurred
- ▶ advises EAO regarding SEEMP approval

Environmental Assessment Office...

- ▶ approves plan as the statutory regulator
- ▶ approves any future amendments to the plan
- ▶ responsible for compliance and enforcement

Certificate Holder Role

- ▶ develops the SEEMP
- ▶ provides early and ongoing opportunities to organizations to review and provide input during SEEMP development
- ▶ documents results of engagement
- ▶ submits plan and engagement record to CSCD
- ▶ implements plan using Adaptive Management process
- ▶ prepares periodic implementation reports and final report upon project completion
- ▶ seek prior EAO approval of plan amendments

SEEMP Summary – 3 phases

SEEMP Development/Approval		Construction
1. SEEMP Development submit to CSCD <u>90 days</u> prior to construction	2. SEEMP Approval	3. SEEMP Implementation Adaptive Management: ongoing engagement, monitoring, reporting
Proponent leads development of SEEMP and engages affected organizations throughout construction phase		
CSCD provides guidance on plan development, advises EAO on plan, EAO approves plan		EAO receives reports/monitors/enforces compliance

SEEMP Contacts

- ▶ Rejan Farley, Director IRPB/SEEMP Project Manager Rejan.Farley@gov.bc.ca
