

Public Presentation – Terrace Campus

Wednesday, November 21st 12:00 pm – 1:00 pm

This session will also be available via livestream: <http://www.unbc.ca/northwest/livestream>

Guardians of the Babine: Grizzly Bears of the Babine River Watershed

Presenter: Len Vanderstar (R.P.Bio., R.P.F., B.Ed., RGCS Fellow)

Len is a Skeena Region based habitat protection biologist and has spent decades adventuring within the Babine River watershed. Len is an advocate for grizzly bear conservation and he will share his personal stories along with photo and video, bringing to life the uniqueness of these majestic animals. This presentation will focus on grizzly bears, but it will also touch on “our connection to place and self-determination as a result of our sustenance economy being prioritized over a monetary economy, largely as a result of salmon energy and nutrient flow up the arteries of our watersheds.”
