

CAREER OPPORTUNITY OF A LIFETIME

If you are considering a new path or about to graduate, we may have much to talk about. Despite many companies downsizing, Investors Group is healthy, vibrant and growing our Consultant network to match the unprecedented demand for financial advisors. But don't just take our word for it:

- Yahoo! Finance Canada reports the financial advisor position as the number one fastest growing gig.
- Statistics Canada reported that the demand for financial professionals outweighs the supply of qualified individuals.
- Money magazine and Salary.com named the financial advisor career among the Top 10 for young adults and among the Top 5 for those over 50.

What's more, demographics within the financial industry suggest that a large number of advisors will look to retire and will need qualified successors to continue their business. And because choosing a new career isn't a decision made lightly, we strive every day to make your choice that much easier by offering you:

- An entrepreneurial environment.
- Industry-leading training.
- Flexibility and independence.
- Mentorship and support.
- Exceptional income potential.

Plus, Investors Group's new Income Enhancement Program provides the opportunity for a higher quarterly income for new, qualified financial advisors in their first two years.

This is just a glimpse of what it is like to build a business with an industry leader like Investors Group. Contact me today for more information to find out what it's like to benefit from the Investors Group Advantage.

The demand for financial advisors has never been higher...are you ready?
