

Program Planning Guide

Bachelor of Science: Geography

YOUR COURSE PLANNING: This worksheet has been created as a guide for admitted students. Note that your course planning may look different than another student; this worksheet has been designed for students wishing to complete their program within a four-year timeline. Students may elect to take part-time studies or a reduced course load. Refer to the [Undergraduate Academic Regulations](#) within the Undergraduate Calendar for more information.

For requirements that have a “pick list” (i.e. *choose one of*) please visit the Undergraduate Calendar to see a detailed list. Note the list or requirements may change, so please ensure you follow the appropriate requirements (the [2021-2022 Undergraduate Calendar](#)). After July 1, 2021, you can find the calendar in a [PDF format](#).

NOTE: Although every attempt has been made to ensure the information on this worksheet is accurate, in the case of any discrepancy the Academic Calendar shall be considered the authority. This program planning worksheet is an unofficial planning tool for students new to UNBC and for students in a non-competitive entry program. Once your program has been declared, please use your degree evaluation as it is the official degree program-tracking document. You can find more information about your degree evaluation and how to run one at unbc.ca/advising.

Course Notes

- These courses need not necessarily be taken in the sequence as indicated.
- Students should consult with the Undergraduate Calendar for course descriptions and pre/co-requisites.
- As a part of the elective requirements, students must take 9 credit hours of Science electives from a defined list, and 15 credit hours of Upper Division (UD) Science electives from a defined list. Consult the Undergraduate Calendar for more information.
- Students wishing to take ENSC 250 should note that STAT 240 should be taken in Year 2-Fall.
- Students are encouraged to consider taking a field school. Past field schools have been held in Canada and across the world, including Guatemala, Peru, South Africa, and Death Valley. Interested? Check out the [Geography Field Schools](#) to view more information about the field schools experience.
- Students wishing to become a Geoscientist should consult with the requirements listed on [Engineers and Geoscientists of British Columbia](#) and the [self-evaluation checklist](#).
