

SKILLS YOU DEVELOPED WITH YOUR DEGREE?

COMMUNICATION SKILLS

The ability to communicate ideas clearly and efficiently in a variety of mediums (written, oral, visually and electronically).

PROBLEM SOLVING

Use critical thinking skills to evaluate and solve problems.

Demonstrate the ability to be creative and innovative in identifying solutions.

PERSONAL MANAGEMENT SKILLS

Able to work effectively and independently under deadlines.

Plan, design, and carry out projects from start to finish with well defined objectives and outcomes.

INFORMATION MANAGEMENT

Locate, gather, and organize information using technology and information systems.

Use research skills to access, analyze, and apply knowledge.

TEAMWORK SKILLS

Able to work effectively within a team.

Demonstrate the ability to lead or support a team while monitoring the success of project and identifying ways to improve it.

ETHICS AND VALUES

The ability to take into consideration the costs, benefits, and impact of projects on the individuals involved and society in general.

WHAT CAN YOU DO WITH YOUR DEGREE?

BIOLOGICAL RESEARCHER

Makes detailed observations, analyzes data and interprets results. Prepares technical reports, summaries, and quantitative analysis.

DNA ANALYST

Plays a role in the investigation of crimes. Analyses blood samples to help provide evidence of how a crime was committed and who is responsible through DNA testing.

BIOMEDICAL ENGINEER

Develops concepts and converts the ideas of physicians, rehabilitation therapists, and biologists into usable devices, procedures, treatments, and techniques to improve the quality of patient's life.

GENETIC TECHNOLOGIST

Study chromosomes and their relationships to disease in humans, animals, and plants. Prepare and process specimens for genetic analysis, diagnose carriers of genetic diseases, and conduct studies of chromosome abnormalities.

REGULATORY AFFAIRS ASSOCIATE

Helps develop new drugs and other products and submit them to a regulatory agency for approval to be made available to the consumer market.

PHARMACEUTICAL SALES REP.

Sell pharmaceutical drugs to physicians, dentists, veterinarians, hospitals, and drugstores. Introduce new products and provide information on related clinical studies, recommendations on doses and usage.

MEDICAL LAB TECHNOLOGIST

Perform laboratory tests to analyze and provide information that can be used to diagnose and treat humans.
