

Active Leadership (Three Days)

Effectively coach, empower and lead individuals and teams to higher levels of performance.

Intense competition coupled with flattened hierarchies, multi-dimensional teams and a diverse working environment characterize today's business climate. This reality requires an equally diverse set of leadership practices and skills for anyone responsible for getting results with and through others. Recent studies confirm the leader is the prime factor for creating a productive work environment and contributing to higher employee retention.

The Active Leadership course provides the concepts and the practices of Leadership in a high impact learning-environment to help leaders effectively coach, empower and lead individuals and teams to higher levels of performance.

What You'll Learn:

- Assess personal leadership behaviors and attitudes that impact the performance of others
- Plan and deliver clear, concise communication to direct, guide and engage employees
- Understand what people need in order to change a behavior or practice
- Determine how ability and motivation impact performance and outcomes, regardless of the task
- Explore three different leadership styles and when they should be used to maximize the performance of others
- Match the appropriate leadership style to individuals and specific tasks
- Explore how the foundational principles of coaching impact coaching results
- Differentiate between "coaching for job" versus "coaching for career"
- Provide behavioral feedback that recognizes and rewards employee performance
- Use a consistent approach to providing feedback that reinforces desired behaviors and helps achieve performance improvements
- Assess performance gaps and improve task performance
- Coach, reinforce and create a motivational climate for employee growth and retention
- Create a personal development plan based on assessed leadership strengths and development needs

This course qualifies you for the following PMI® Professional Development Units (PDUs):

- Leadership = 11
 - Strategic and Business Management = 10
- Total = 21**

Prerequisites
