### **WOODLAND CARIBOU MANAGEMENT IN BC; THE GOOD, THE BAD AND THE UGLY**

Caribou are an iconic megafauna in Canada and BC. They are sensitive to wide range of human activities and are showing signs of too much close contact. BC is actively engaged in managing caribou and has seen some successes and setbacks in its efforts to keep this species at sustainable numbers and distributed across a broad distribution. The challenges of caribou management in BC, and some lessons, will be discussed.
