Graduate Programs

FRIDAY, JANUARY 21

NRES / CSAM RESEARCH COLLOQUIUM SERIES

“Impacts of forestry on carbon storage in sub-boreal forests”

Dr. Art Fredeen, Professor
University of Northern British Columbia

Date: Friday, January 21, 2005
Time: 3:30—4:30 pm
Lecture Theatre - 7-238

Refreshments served at 3:25 pm

NEW PUBLICATION

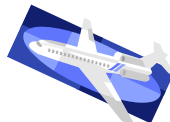

- ◆ **Green, D.S.** 2004. Describing condition-specific determinants of competition in boreal and sub-boreal mixedwood stands. *For. Chron.* 80(6): 736-742.

NOTICE

- ◆ To meet the needs of early classes, **John Or-lowsky**, greenhouse technician, will be starting work at 7:30 this term. He can be reached at 960-6478 if you need early morning plants or services.

TRAVELING

- ◆ **Oscar Garcia** is traveling 17-19 January to Spokane, WA, where he has been invited to speak at the Inland Northwest Growth & Yield Coop (INGY) Technical Meeting.

MEDIA

- ◆ **Neil Hanlon** made a presentation to Prince George City Council on 6 December 2004 to provide information based on research he is doing on population aging in northern BC and its potential impacts and implications for the city. The presentation attracted a lot of media attention:

Neil was quoted in a front page article that appeared in the December 7th edition of the *Prince George Citizen*.

He was also interviewed by radio and television journalist Trevor Metz, appearing in features that ran on *PGTV News Central*, and on 99.3FM, *The Drive*, on December 6th.

The next day, Neil was interviewed by CBC Radio One *Daybreak North* co-host James Evans, who wanted to hear more about the spatially uneven patterns of aging in the region, and what this might mean for communities throughout northern BC.

REMINDER: Share your information about recent publications, grants, and /or other honours you may have received with others interested in NRES issues.
