

# ~ Wade Davis ~

## *Light at the Edge of the World*

Monday December 1, 2:30pm-3:30pm  
Canfor Theatre (6-213) UNBC

Join world-renowned anthropologist/ethnobotanist Dr. Wade Davis (National Geographic Society Explorer-In-Residence and 2009 Canadian Massey lecturer) for this UNBC lecture.

This talk moves throughout the world, from Borneo to Tibet, from the high Arctic to the Amazon, as Davis shares his experiences as an anthropologist and plant explorer. If there is one lesson to be drawn from these travels, it is that cultural and biological diversity are far more than the foundation of stability, they are an article of faith, a fundamental truth that indicates the way things are supposed to be.
