Event Form Name	Description
Research Ethics Board Amendment Form	In cases where the nature and/or the extent of the proposed modifications are substantial, such that the changes result in a study that deviates substantially from the originally approved study or previous modified study, the REB reserves the right to require that a new application form be submitted.
Research Ethics Board Unanticipated Problem Form	Any unanticipated problem that increases the level of risk to participants or has other ethical implications should be reported to the REB without delay. Changes that need to be made to reduce or eliminate immediate risk(s) to participants are to be implemented, followed by a report to the REB at the earliest opportunity. Minor deviations from the approved research project do not require immediate reporting to the REB, and may be summarized and submitted at the time of Annual Renewal, or Study Closure through an Amendment Form. If you would like to speak with a member of the board, or the board Chair regarding this problem please call 250-960-6735. Conversations can be of immediate support and assurance. The Form will still need to be completed in due course.
Research Ethics Board Annual Renewal and Study Progress Form	This form must be submitted at least a week before the date of expiry listed on the latest approval letter. If your study is complete, please fill out the "Study Closure Form" instead. If you have changes to be reviewed for this study, they will need to be recorded on an Amendment Form and submitted separate from the "Annual Renewal and Study Progress Form". The processes for a renewal or an amendment have been separated.
Research Ethics Board Study Closure Form	This form must be submitted to close your REB approved study once it has concluded. If the date of expiry listed on your initial approval letter is approaching and your study is not yet complete, please submit an "Annual Renewal and Study Progress Form".

4. You will be brought to a screen similar to the one below. Under the **“Event Info”** tab, you can enter general comments and notes in the **“Note(s)”** text box (red arrow below). Click **“Save”** before moving to the next tab (blue arrow below). At any time, you can save your application and continue working on it at a later time.
