- Notes:
- 1) number of credentials was reported by calendar year (January 1 to December 31) based on convocation date
 - 2) each year, some completers (graduates) received more than one credential; each credential was counted
 - 3) home town area was based on the location that the completer stated on their "Application for Graduation" form; this may be different from their permanent address, their application address, and their student address
 - 4) home town areas follow the geographic boundaries used by BC School Districts, with the addition of Prince George and outside BC as separate areas
